ardmore, Monday, February 12, 1908.

Is Mr. Bryan is the only candidate
not nominated him by resolution?With the exception of the Adams
it would be made in
day before.A Chicago attorney wants to
a more lady has any of advice
pk. Why not try something?The print paper contains weight
only on the newspaper publishers,
still a newspaper congress
to put print paper and wood
from the tree.Perhaps the reason Senator Ber-
nard is so anxious for a nonpartisan
tariff commission is because he
is trouble ahead for the republi-
canity on the tariff issue.Those who are infatuated with
repeal inflation should bear in
mind that the United States treasury
officials report there is \$182,000,
or more money in circulation than
there is in the country at present.The Washington official has dis-
covered a Boston man who drinks
gallons of water daily. Who
spoke he is trying to prevent the
use of averages. There are quite
number of Boston people who do
drink water at all.Secretary Bonaparte is sure that
only way to reach the trade is
to ban them. Most other people
think cutting off their tariff
would make them more
desirable and moreover help them
to consume their products.The republican program for tariff
is to raise it higher, by
using maximum tariff rates above
present high rates, which will be
set the minimum rates. How the
rate and minimum must be raised
in their gloom, and now willing
they will "come down" to carry
such a program.
